Dear Mr. Weisberg —

Again my grateful felicitations on "Whitewash"! It's the book which needed to be written — and I only with everyone in the U.S. (& abroad) could have a copy (which I'm sure would solve yours as well as the nation's problems!).

I've been working on the Case since Nov. 25th '63 (!) and have produced a series of some 60 panoplies (exhibits, if you prefer) demonstrating a great many of the fallacies & deceptions created by the W.C. "Whitewash" to expertly represents my own point-of-view

about nearly every aspect of the case it covers.

I wish you an enormous success with it.

Enclosed herewith, are a few articles I thought might be of interest — and which may be new to you.

With my sincere good wishes,

Maggie Field.
